

Dear ALL,

Greetings from Kuwait Science Club...

We are very thankful and proud of the success of our 1st & 2nd International Invention Fair of the Middle East which was held in Kuwait in 2008 and 2009.

This unique convention in the Middle East was received with great importance locally, regionally, and internationally. It highlighted the inventions, innovations and creativity of youths. The convention also promoted Kuwait's modernity and its role in encouraging and supporting the inventors and participants in this public service.

In continuing the process of sponsoring the efforts of young inventors and innovators, and affirming Kuwait's role in supporting their creative and technological energies...

The Kuwait Science Club, collaboration with the International Geneva Convention, is proudly hosting the 3rd International Invention Fair of the Middle East from November 7 – 9, 2010.

Under the Patronage of

His Highness the Emir of Kuwait

Sheikh Sabah Al-Ahmad Al-Jaber Al-Sabah

It is our honor to extend this invitation to research centers and all scientific and technology communities and associations, and any interested innovators in your office to participate in this convention.

The convention will host many activities, including displaying the various innovative ideas or inventions, and competitions for best inventions to be judged by a specialty panel. The convention will also award valuable prizes for top inventions.

Upon participant applications received, the Kuwait Science Club will sponsor the accepted inventions by granting a booth (2x2)m² reservation (with chair & table), plus accommodations for the duration of the convention and transportation from the hotel to the fair.

Please visit our website at www.iifme.com for more information.

KINDLY FORWARD TO ANY INTERESTED PARTY
